future homeowners

[the noldte littell family]

"We want a safe backyard for our children and their friends to play in."

-Jackie Noldte

Jackie Noldte and Caleb Littell were at the County Fair when they saw a Habitat for Humanity Information Booth. Caleb decided to "check it out" and see if it could possibly work for them. "We have two children and live in a trailer. The thought of having our own home, where our children have their own backyard to play in and to be able to have their friends over makes us happy."

build on faith. build up families. build community together.
